## Software Engineer

Male | Nigeria

I am a passionate Software Engineer, specialized in Back-End Development. I have a deep love for creating intuitive backend services with strong use of backend technologies like NodeJS and Flask. Proficient in JavaScript, Python, and cloud technologies, with hands-on experience in frameworks like Flask, ExpressJS and other database technologies like MySQL, MongoDB, and Redis. Hope to contribute to a forward-thinking team.

## Professional Experience

### Program and Event

Akure Tech Hub | Remote

Oct 2024 - Present | Voluntary
